## Missouri River On Rampage

### Two Drowned In Iowa Town

The weatherman threw everything he had at Mansfielders over the week end while in the Missouri river valley residents fought to save their homes as waters surged to record flood stages Two persons were dead in Missouri Valley, Iowa.

In typical March style, the mercury went up and down like it was greased. There was rain, lightning, snow and sunshine Several times Sunday it snowed while the sun shone.

**From a high of 63 degrees Saturday the mercury dipped to 10 above this morning, making Mansfield the coldest spot in the state. The mercury climbed to 26 at noon today.**

Early today Mansfield streets were slick from the light snow that fell last night, but salt placed on the streets several days ago was sufficient to prevent any ice from forming, E. W. Davis, street superintendent, reported.

While Mansfielders wondered whether to wear a light coat, a heavy coat, or a raincoat, residents at Atchison, Kans., saw the Missouri river crest at 26.6 feet, an all-time record six feet over flood stage.

**GORGE BREAKS**

The Missouri's giant ice gorges broke Saturday and Sunday, creating a week end of terror for lowland dwellers in Iowa, Nebraska, Missouri and Kansas as pent-up waters poured downstream, rolling the cakes of rotten ice on their turbulent crests

River experts said the ice breakup permitted the river free flow from Nebraska City, Neb., south below Kansas City. This section included most of the danger zone.

**The U. S. engineers' office at Kansas City reported that the river knocked out 40 levees and flooded 175,000 acres in the four states.**

They warned that the cakes of ice rushing downstream might jam and cause dangerous flood conditions "anywhere at any time."

The river was climbing relentlessly to a new crest at St. Joseph, Mo., where it was expected to hit 21 feet today.

Scores of families were forced from their homes by the high water at Atchison. Cars were marooned and sections of the Rock Island and Burlington tracks were damaged.

Officials at Missouri Valley, Iowa, blasted a levee to lower flood waters that forced 1,000 persons to leave their homes. The Boyer river was lowered sufficiently to clear the town's main street, but still covered residential areas to depths of nine feet.

**DROWNS IN HOME**

George Johnson, 77, was found dead in the second story of his water-filled home and a 10-year-old boy was swept away in a swollen creek near the town.

In eastern Iowa, the Des Moines river was falling after hitting crests at Ottumwa and Eddyville, scene of disastrous floods in 1947. Ice on the Raccoon river knocked out two bridges and left great cakes on highway 48, near Elliott, Ia.

**Flood threats in northern Illinois and southern Wisconsin also were easing.**

Partly cloudy, windy and warmer was forecast for Tuesday in the Mansfield area, with possible showers Tuesday night. It will be fair and not so cold tonight, the weather bureau said.

## Donations Lag In Fund Drive

Contributions to the annual Red Cross campaign continued to lag today as the total reported remained at the Sunday figure—$5,499.

However, Campaign Chairman Glenn L. Bierly said today he expects the drive to go into high gear this week as more workers hit their stride.

Window displays placed downtown under the direction of Harold McCuen are attracting considerable attention and the big red cross in Central park is a constant reminder that Mansfield and Richland county have a chance to serve through the Red Cross, workers pointed out.

## *Cent Refuses To Do Work Of a Fuse*

COLUMBUS —(INS)— A penny saved would have meant 450,000 pennies earned to William A. Zitzke, of Columbus.

Zitzke's home suffered $4500 damages in an attic blaze apparently caused when a penny in the fusebox overloaded electric wires over the week-end.

He told firemen he put the penny in the box when a fuse burned out.

## Oleo Bill Bobs Back Up Tonight

### Senate Slated To Vote Again

COLUMBUS — (AP) — First efforts to resurrect the oleomargarine bill will be made in the state senate tonight. It was defeated by one vote in the senate last week.

A motion to reconsider will be made by Sen. William M. Boyd (D-Cuyahoga). One of the bill's most ardent supporters, Boyd finally cast his vote aginst it when he realized defeat was certain. He wanted to qualify for making the reconsideration motion. Only a member who voted with the prevailing side is qualified to make such a motion.

**The bill, which was initiated by petition of electors, would legalize the manufacture and sale of colored oleomargarine.**

The bill had sufficient votes for passage, seventeen, but Miss Margaret Mahoney, the Democrat floor leader who was presiding, did not vote.

Her vote would have given the necessary 17. The actual vote was 16 for to 14 against.

Two members did not vote. Sen. George Davies (R-Fulton) was ill at home and Sen. David Ferguson (R-Guernsey) left the chamber when the roll was called. Whether these two senators will be on hand for the Monday night session is not known.

On the surface it would appear that the proponents of the measure have sufficient votes (with Miss Mahoney's) to pass the bill on reconsideration. However, there has developed a possible hitch Reliable reports say that Sen. Ralph A. Winter (R-Medina) who voted for the measure last week has declared his intention to vote against it if it is again brought to a vote.

**His vote would offset Miss Mahoney's and still leave the bill short one vote for passage.**

Senator Davies, a Wauseon banker lives in the midst of a strong rural section and most likely would oppose the measure. Senator Ferguson, a Cambridge oil and gas producer, likewise represents the rural counties of Morrow, Knox, Wayne, Holmes, Coshocton, Tuscarawas, Guernsey, Monroe and a part of Noble counties.

## *Daylight Time Battle Looms Anew*

COLUMBUS —(UP)— The Ohio general assembly, which quit tinkering with the clocks six years ago, today was on the threshold of being pitched headlong into the perennial battle over Daylight and Eastern Standard time.

**The house committee on organization of state government takes up the time question tomorrow morning.**

Up for consideration are two constitutional amendments. The first would prohibit local governments from deciding on their own what time their residents get up and go to bed. The second would put the entire state on Daylight time from the last Sunday in April to the last Sunday in September. Eastern Standard time would be maintained the rest of the year.

In 1943, the legislature put all state clocks on eastern standard, although a number of cities were on daylight saving. The issue is still fought annually in many counties.

### Four Tunnel Through Wall

**BULLETIN**

**MUSKEGON, Mich. — (INS) — Two of four prisoners who tunnelled their way out of the Muskegon county jail early today were recaptured in Muskegon. They are Joe Sheldon, 34, Chicago, and Edward O. Harp, 20, Howard City, Mich.**

★

MUSKEGON, Mich. — (INS) — Four inmates, including a convicted murderer, escaped early today from the Muskegon county jail by tunnelling through an 18-inch mortar and brick wall with spoons.

**Deputy Sheriff John C. Russ said one of the men is "suspected to be armed, but said it is not known how the weapon might have been obtained.**

A road block was thrown around this area.

Russ said the escapees included Ralph McDonald, 46-year-old paroled lifer previously convicted of murder. McDonald was held as a felonious lifer.

The other convicts were identified as Eddie Clay Robinson, 18-year-old Muskegon county youth held on a breaking and entering charge; Joe Sheldon, 34, Chicago, jailed for armed robbery; and Edward O. Harp, 20, of Howard City, Mich., charged with a Mann Act violation.

### 80 Attend Ontario Party

## *Girls Stage County's First 'Play Day'*

Eighty girls from Richland county high schools enjoyed themselves and became better acquainted Saturday at the county's first "play day" program at Ontario school.

Mrs. Lois McCullough of the Ontario school staff said the "play day" was a big success and indicated another will be held during this term or early in the 1949-50 term. Mrs McCullough was in charge of the activities Saturday.

The fun started at 9 a. m. and continued until 3:30 p. m.

**There were amusing skits by Lucas and Lexington school groups and two dances by the Ontario girls. Then basketball and volleyball games were played with members of the Yellow team amassing a total of 112 points to win top honors.**

Members of the winning team were Leora Burkepile, Butler; Patty Campbell, Lucas; Loretta Applegate, Lucas; Dorothy Lexington, Gloria Lehman, Lexington; Pat Jones, Lexington; Anne Taylor, Ontario, and Katherine Roberts, Lucas. Relays were included in the sports program for the day.

At noon luncheon was served in the school cafeteria by members of the cafeteria staff. The luncheon and expenses were paid for by a small registration fee paid by each girl.

**"I think it promoted both fellowship and friendship among the girls," Ontario Supt. L. C. Stingel said. "We probably didn't have as large a crowd as we might have had if the 'play day' had not been postponed. But we think it was worth the effort and will probably have another next year."**

An earlier "play day" had been scheduled but a water line break at the school forced postponement.

Girls were present from Butler, Lexington, Lucas and Ontario schools Teachers assisting Mrs. McCullough, girls' athletic instructor at Ontario, were Mrs. Isabella Hoffman, Butler; Miss Doris Forney, Butler, and Miss Ruth Raney, Ontario. The event was sponsored by the Girls' Athletic association of Ontario school.

## U. S. Snubs Soviet Protest

### Grand Jury Gets Spy Case

NEW YORK—(INS)—New York's spy-hunting federal grand jury was called into special session today to hear the government's espionage case against Brooklyn-born Judith Coplon and Valentin A. Gubitchev, Soviet U. N. aide.

**Vigorous Soviet protests over the arrest and jailing of Gubitchev were ignored as the government moved firmly ahead with its case against the Russian and Miss Coplon, 27-year-old justice department employe.**

Special assistant U. S. Attorney General Thomas J. Donegan, who has been directing the continuing grand jury investigation of communist espionage, indicated he has little doubt that stiff indictments will be returned against the couple, seized in New York last Friday night.

**MAY BE STIFFER**

Donegan noted that nothing prevents the grand jury from indicting the pair for even more serious crimes than charged against them at their arraignment Saturday.

The preliminary charges against Gubitchev and Miss Coplon include "conspiracy to commit espionage," and other counts carrying maximum penalties of five years in prison or $10,000 fines, or both.

**Donegan declined to say what stiffer crime he might have in mind, or the possible penalties.**

Donegan said it was not certain that Gubitchev and Miss Coplon actually would be brought before the grand jury today. He said other witnesses, in the general spy probe, would be heard first.

In Washington, Attorney General Tom Clark said the government may need a week to present all its evidence against the alleged spy-partners.

Gubitchev, a Russian engineer assigned to the United Nations, is accused of receiving secret documents from Miss Coplon, an analyst in the internal security division of the justice department.

## Sally's Trial In Last Act

WASHINGTON —(INS)— The treason trial of "Axis Sally," American actress who turned Nazi propagandist, went into its last act today with closing arguments to the jury by prosecution and defense lawyers.

It is expected that the jury of seven men and five women will begin deliberating the fate of "Sally"—48-year-old Mildred E. Gillars—on Wednesday The trial began six weeks ago today.

**A guilty verdict could mean a sentence of death in the electric chair, although the government is not expected to press for the death penalty.**

The minimum sentence would be five years in prison, a $10,000 fine and loss of citizenship.

The jurors merely will pass on Miss Gillars' guilt or innocence. Judge Edward M. Curran will decide the penalty.

**SALT LAKE SHAKEN**

SALT LAKE CITY —(AP)— An earth tremor rocked the downtown section of Salt Lake City last night, but there were no reports of damage.

## *Odom's Going Strong*

HONOLULU —(AP)— Bill Odom, trying a non-stop small plane flight of 5,285 miles to Teterboro, N. J., passed the halfway mark to the coast at 9:30 a. m. (EST) today.

A Coastguard weather vessel 1,100 miles out of San Francisco reported Odom passed a little south of his course because of a storm to the north. He was on schedule and taking advantage of a 25-knot tailwind.

**An escorting B-17 turned back to Hawaii at the 1,000 mile mark after reporting Odom was at 7,500 feet and finding the weather much better than it was in his last attempt to set a new small plane distance record. He was forced down in that attempt on Jan. 13 at Oakland by bad weather over California's mountains after flying 2,401 miles—a new record in itself.**

Odom planned to ride the beam of radio station KGO in San Francisco to the west coast. Another military plane from the coast was scheduled to pick him up about 1,000 miles from San Francisco.

Some 700 miles east of Honolulu, Odom already had weathered one small storm.

**The 29-year-old flier eased his gasoline-heavy Beechcraft off the runway at 7:05 last night (12:05 a. m. EST. today). Assured favorable tailwinds most of the way, he expected to be over San Francisco in 17 hours, on the ground at Teterboro in 32.**

The single-engine craft made a perfect takeoff—skilfully nursed by the man who flew solo around the world in the record time of 73 hours, five minutes, 11 seconds in 1947.

## Mum About New Arrests

### Bulgars Silent; Verdict Waited

SOFIA — (INS) — Bulgarian officials refused to comment today on reported new arrests of Protestant ministers in Sofia while the fate of 15 other Protestant churchmen charged with treason was awaited.

The three judges who heard the case of the 15 clergymen begin their deliberations today and the verdicts are expected tomorrow.

**The communist prosecutor asked for death penalties for four defendants and heavy prison sentences for the other 11.**

All are charged with spying for the United States and Great Britain and related black market activities.

Officials remained silent on the reports of new arrests which are believed linked to new Bulgarian moves against so-called western imperialism and U. S. capitalism.

## Successor Identity Secret

### Truman Rests At Key West

KEY WEST, Fla.—(UP)— Secretary of the Army Kenneth C. Royall's departure from the government may be made public before March 20, it was learned here at President Truman's vacation retreat today.

Administration insiders have said for sometime that Royall, a tall North Carolinian, would be the next major government official to follow Secretary of Defense James V. Forrestal into private life.

**Royall has repeatedly brushed aside reporters' questions about his leaving the defense set-up. But there appeared little doubt now about his departure.**

There was some speculation last week that the acceptance of Royall's resignation would be announced by Mr. Truman at the same time he disclosed the appointment of Louis A. Johnson to succeed Forrestal. However, at his news conference last Thursday, the President said Royall was not leaving.

**IT'S A SECRET**

Since then it has become known that Royall is on the way out, and soon. The identity of his successor was a closely held secret.

Royall, 54, has been army secretary since July, 1947, when he succeeded Robert P. Patterson. Previously, he had served as under-secretary. A veteran of both World Wars, he was a brigadier general when he was named undersecretary in November, 1945.

Dropping Royall from the defense establishment had no direct connection with the President's sojourn at the Navy submarine base here. The decision to accept the Army secretary's resignation was made long before the President left Washington yesterday morning.

Mr. Truman took off at 8:47 a. m., and landed at Boca Chica Naval air base at 12:34 p. m. after a flight that averaged 290 miles an hour.

He got his biggest kick of the day out of beating the White House reporters to Key West. The President had ordered the crew of his ship to make a fast trip so he could beat the press plane. He arrived four minutes ahead of it.

**The Chief Executive, switching from the role he has played many times, greeted the reporters as they climbed from their ship. He hammered them with questions in the best reportial style, asking "What about Molotov" and scribbling rapidly on note paper as the surprised correspondents mumbled "no comment."**

While the President planned to keep abreast of his more urgent work via air-borne pouches and teletype, he found great relaxation at his waterfront quarters. He got his best rest in having no official callers.

He planned to go swimming about 10 a. m. today. Beyond that there was nothing fixed on his schedule.

### *Today's Weirdest Story—*

## Salt Put on Corpse to End 'Spell' Over Widow

ALTOONA, Pa.—(AP)—A re-opened grave—a burned U. S. Army uniform—a pinch of salt cast on a corpse.

Those were some of the details of a story unfolded here yesterday—a story centering around a "hexed" widow who is reported recovering from a "spell" cast on her by her dead soldier husband.

Bedford county authorities said they had granted permission for the re-opening of the grave of Pvt. Reuben Rock, 29, who died last Jan. 13 of tuberculosis.

Arthur Dively, father of Rock's widow, Mrs. Rosella Rock, 22, said a ceremony performed at the grave Feb. 22 freed his daughter of the "spell" that had brought her close to a nervous breakdown.

**The U. S. Army uniform in which Rock had been buried was stripped from his body and burned, Dively said. Salt was** sprinkled on the body to ward off evil spirit. The corpse was then wrapped in a clean white sheet and returned to its resting place.

After Rock was buried Jan. 16, Dively said his daughter was tormented by her husband's restless spirit. Rosella was unable to eat or sleep, Dively said.

Her parents became convinced Rock had practiced witchcraft by charming Rosella's picture, Dively said. The picture was found and destroyed but apparently to no avail.

Dively said members of the family could sense Rock's spirit "right in the room with us. It knocked at the windows and screamed over the top of the house."

The family decided it had been a mistake to bury Reuben in the army uniform he had left to Rosella. Since the uniform was destroyed, Dively said, the noises have stopped and Rosella is returning to health.

### *Would Repeal T-H Act, Let State Agencies Handle Strike Trouble*

I HAVE been asked just what I would propose in view of my declared conviction that our unionism is corrupt, predatory and irresponsible and has forfeited all right to toleration by the people.

"You wouldn't outlaw unions, would you?"

No, I wouldn't outlaw them, because that would be to forbid people the right to associate.

I would just jerk the rug from under the whole dirty mess and put unionism back where it was before Roosevelt hit upon the idea of cultivating the A. F. of L. and the C. I. O. as a source of political revenues and violent coercive power.

I would repeal the Taft-Hartley law absolutely and pass no law to take its place.

**Unions then would have a right to bargain collectively if they could force the employers to bargain with them, let them take their own part and make them stay within the law.**

The government of the United States would be no party to their proceedings. The government would ignore them entirely, both employers and racketeers, except when they violated federal law. Then the government would take grand jury action or military action according to the necessities of the case. Otherwise the government would let the unions fight it out not so much with the employers as with the several states. Union riots are properly matters for state authority.

I would remind the people and make them really conscious of the fact that they have a legal right to accept work as strike-breakers.

Practically all of us have come to believe in a dull, stupid way that pickets have a moral right and even a legal right to blockade streets and access to private property and tip over automobiles and throw bricks through the windshields.

They have no more right to do that than you have to go out right now and pick out some innocent stranger and slug him over the head with a tire iron and leave him a gibbering paralytic for life.

For example, you have as much right to work as a strike-breaker as the striker has to strike. It is bad that this right has been overridden. It is bad not only because the New Deal thus distorted the popular understanding of right and wrong but because it has actually raised unions to a position of privilege enjoyed by no other unit of society.

Yes, but wouldn't my plan cause great unrest, disorder and loss of property and probably some personal injury or loss of life?

**I haven't a doubt in the world. We are now "geared" to the goon and lynching system and we probably would strip some teeth from our gears getting geared back into lawful constitutional government.**

But it will never be any easier to do than now. The longer we don't attend to this reform the more dangerous it is going to be to attend to it when we finally do, if we ever do.

The union workers? I don't know just how they would take it, but that wouldn't make any difference. The twelve or fifteen million union subjects aren't everybody. Why should all the rest of the people tremble in fear of this lawless minority?

First pay checks for Mansfielders in the Army Organized Reserve were distributed Saturday.

Previously the reservists did not receive any reimbursement for their monthly training classes, as was given members of the National Guard.

The checks were issued to members of Company F of the 320th Mechanized Cavalry squadron, commanded by Capt. King Culp, and those in B battery of the 908th Field Artillery, commanded by Capt. Jerald Dent.

Master Sgt. Richard Bowden, because of his alphabetical placement on the pay list, was the first man to receive his pay check under the new congressional ruling for the Army Reserve.

**The payroll for the Mansfield unit will run over $1,000 a quarter, said Capt. E. M. Flynn, instructor for the Mansfield reserve office.**

Flynn said there are 120 men now in the unit, "but we can use all we can get." He said the group should have about 500 men.

**GOOD NEIGHBORS**

Dominick Fumea, 33 Orchard street, saw the spirit of National Brotherhood Week at work when he visited his former hometown, Cokeville, Pa. recently. The home of a Cokeville resident burned to the ground during National Brotherhood Week, two weeks ago, leaving five members of the family homeless. There was no insurance to cover the loss. Residents of the small community of some 500 persons are now rebuilding the home in their spare time. Men began work immediately after the fire and hope to have the new house ready for occupancy by the middle of next month. In addition to rebuilding the house, Cokeville residents gave clothes, food, and money to help out in the emergency.

**CONFUSION ENDS**

The days of "confusion" for motorists in the downtown area are about over. The traffic lights, which weren't sure whether to be green, red, or amber most of last week, are all right again, said City Electrician Ernest Adams. He explained the difficulty has been corrected and from now on drivers will only be presented with one light at a time. He pointed out that the lights flash on and off every 27 seconds and that sometimes the relays that cause the lights to change just wear out.

## Davis to Direct YMCA Boys' Camping Trip to North Woods

Robert Y. Davis will be director of the 1949 Canadian canoe and camping trip sponsored by the Mansfield YMCA, Maurice W. Taylor, executive secretary of the "Y", has announced.

Davis was co-director of last year's trip which featured a 125-mile canoe expedition into the north woods of Canada.

**Taylor said there is room for 12 more boys to go on the trip. Plans called for 17 boys to go, but last year's trip met with such success that five boys have already made reservations.**

Cost of the entire trip is $55, with a $10 registration fee, now payable, to be applied to the total cost, Taylor said. The group will leave Mansfield July 26 and will return Aug. 9.

Camping facilities are provided for the group by the north woods camp, owned by the Cleveland YMCA. The only way to get to the camp after they reach Canada is by way of a 45-mile motor launch trip, since the camp is situated on an island in the center of one of the largest lakes in Canada.

Davis is adviser of the YMCA Sophomore Hi-Y club and was formerly program director of the Ohio YMCA camp, Camp Nelson Dodd.

# Men's City Bowling Tournament Ends

## Today's Sport Parade

By OSCAR FRALEY

NEW YORK—(UP)—Boxing's heavyweight championship today faced another split-title period such as Jim Jeffries' retirement on another March day 44 years ago.

It took more than three years to settle on a universally recognized champion after Jeffries in 1905—just as Joe Louis has done now—named two men to fight for the crown he had abandoned.

There is a deadly parallel between the two retirements, one which can do much harm to boxing. For then, as it threatens to do now, it produced a dull, lack luster period punctuated with claims and counterclaims and decreasing interest.

★

JEFFRIES NAMED Marvin Hart and Jack Root as the leading contenders and they fought in the summer of 1905, Hart winning. The next year, Tommy Burns defeated Hart and claimed the title. But, meanwhile, Philadelphia Jack O'Brien also put in a bid as pretenders arose all over Europe. Burns had to wade through them all before gaining world recognition.

**Now Louis has signed Ezzard Charles and Jersey Joe Walcott to fight for his relinquished crown.**

The retired champion will arrive tomorrow to seek the New York boxing commission's sanction of the bout. Chairman Eddie Eagan already has refused such approval. Eagan contended—and for once was well supported — that there should be an elimination series.

★

LOUIS DOES, however, have the backing of the National Boxing association. But even there he faces the possibility of a split, for Connecticut has announced that although it is a member it would not recognize the Charles-Walcott winner as champion.

**The answer to the shuffle is that while the public looks on boxing as a sport, it really is big business. Louis, like all the others, is simply trying to hustle a fast dollar as a promoter who feels he can dictate who his successor should be.**

Eagan certainly would seem to have the perfect setup planned, if you look at it from a just angle. Actually, Louis should not be allowed to name two fighters—one of which he defeated twice and the other from whom he steered clear—while there are others around who although no better, can't be much worse.

★

THE ELIMINATION tournament would be the first answer. But this is not a sport. It is a vicious, calculating business and Louis, by proxy and right of previous ownership, probably will wind up with a piece of the new "champion" by right of promotion.

Yet it is difficult to forget that Jeffries, too, handpicked the two "contenders" who should fight for his vacated crown. And it wound up in a desultory period of virtual heavyweight poverty.

## Herman Five Slips Into Sixth Place

The annual men's city handicap bowling tournament ended yesterday on the Richland Recreation Center alleys.

Only one change resulted yesterday as 12 teams from the Sons of Herman league chopped at the maples. The Yardbirds fired a ringing 2936 to slip into sixth place, one pin behind Max Diner. Baku Grotto of the Club league won the team title with 3015.

## Trustees Okay Coach Firing

FAYETTE, IA., — (AP) — The upper Iowa university board of trustees yesterday unanimously upheld the recent dismissal of the school's basketball coach.

Coach Joe Fortunato was dismissed recently by President V. T. Smith, who explained the reason for the dismissal was the coach did not have a masters degree.

About 250 of the school's 400 students staged a walkout from classes last Monday and Tuesday to protest the dismissal.

Smith said Fortunato was in town during yesterday's meeting, but planned to leave today for Kent State, Ohio, where he plans to study for his masters degree.

## Ohio Has Many Fine Cage Fives, But Which Is Best?

COLUMBUS—(AP)—The big argument about Ohio's No. 1 college basketball team can start now—the regular season is over.

Cincinnati, aided by a last-minute Western Reserve victory over Butler, wrapped up the undisputed Mid-American conference title; Ohio Wesleyan nosed out Muskingum for the No. 1 spot in the Ohio conference, and Muskingum nosed out Cincinnati in the all-games sector.

Despite that three-way merry-go-round in the top brackets, there is lots of evidence hanging around that Bowling Green boasted the best team in the state.

**BEST IN COUNTRY**

The high-flying Falcons wound up with 21 wins in 27 starts, but they played and defeated some of the best in the land, only a few Ohio colleges appearing on their schedule. Cincinnati was just ahead of the Bee-Gees with 21-5, while Muskingum headed the list with 18-4.

Cincinnati averaged 71.7 points in winning nine of 10 Mid-American loop games, and was second to Butler's 49.9 on defense. In the Ohio conference Wesleyan had a 12-0 record to breeze by Muskingum's 15-3.

Final chore on the college slate is the Ohio conference title tourney this week end at Springfield, with Akron, Kent State, Mt. Union and Wesleyan fighting it out. Muskingum turned down a bid to the affair.

## Cleveland Barons Fall From Second

*(By United Press)*

The Buffalo Bisons were stampeding through the American hockey league today and the Cleveland Barons were the latest victims of the lakefront club.

Buffalo, hopelessly out of the league's western division race, whipped the Barons, 4 to 2 last night. The defeat not only stymied Cleveland's bid for the western leadership but cost the Barons second place.

## Mansfield Cagers Beat Galion, 58-55

GALION—The Mansfield all-star basketball team yesterday eked out a 58-to-55 victory over a favored Galion Stars quintet on the local armory floor.

Mansfield led all the way to rack up its second straight victory. Using a two-platoon system, the all-stars were in the van at the quarter points, 15 to 10, 34 to 25, and 47 to 38.

The fast Galion cagers sliced a 14-point margin in the last quarter but couldn't catch up. Bill Harpich, Galion forward, was the leading scorer with 10 markers.

Playing less than half the game, Ralph Majors counted nine points for Mansfield. Rollie Ford and Ed Chatlain each chipped in eight.

## Another Big Legal Shuffle Threatens OB

NEW YORK — (AP) — Organized baseball was threatened today with another legal headache — a multi-million dollar one — but an air of mystery sorrounded the latest of the sport's spectacular developments.

John L. Flynn, New York attorney, announced suits would be filed against the national game soon by several players suspended for jumping to the Mexican league three years ago.

He declined to name the men but stated $5,000,000 was a "low" estimate of the total amount of damages that would be asked.

**BANISHED CHANCE**

He said the suits, like the Danny Gardella case which still is pending in the courts, would be based on the contention that banishment deprived the players of a chance to earn a living.

Gardella, former outfielder of the New York Giants, sued baseball leaders for $300,000 contending the game is a monopoly and its reserve clause violates the anti-trust law. A U. S. court of appeals held last month the Bardella case should be heard.

The St. Louis Post-Dispatch yesterday named ten players reportedly ready to file damage suits for an estimated $5,000,000 through attorney Flynn.

**LIST OF PLAYERS**

The players were listed as pitchers Max Lanier and Fred Martin and infielder Lou Klein of the St. Louis Cardinals; outfielder Luis Olmo of the Brooklyn Dodgers; Pitchers Sal Maglie, Harry Feldman and Ace Adams and infielders Roy Zimmerman and George Hausmann of the New York Giants; and Myron Hayworth, a catcher, who played with the St. Louis Browns and Toledo of the American association.

Commissioner Chandler, in Sarasota, Fla., had no comment.

### All-Time High

ANN ARBOR, Mich.—(AP)—University of Michigan athletic receipts reached an all-time high of $877,097 during the 1947-48 season. But rising costs reduced the net income below the figure for the previous season.

## OB Beckons Mansfield Once Again

For the dozenth time since the old Ohio State baseball league folded during the war years, Mansfield today was again being considered for a berth in organized ball.

The question of whether the Class D Ohio-Indiana league will be a six- or eight-team circuit is still in the air and leaves speculation that Mansfield will be contacted as a replacement for Richmond, Ind.

**NO PLAYING FIELD**

Mansfield has a chance to enter the O-I loop last year but lack of a playing field kept major league sponsors away in droves. At least, three big league clubs were interested in putting a farm club in Mansfield.

Any possibility of Mansfield's return to OB will probably be blocked by the old "no park" bugaboo again this year.

The Richmond, Ind., and Zanesville, O., clubs' franchises were returned to the league yesterday at a meeting of league directors here.

**However, the Zanesville franchise then was granted to the Zanesville Chamber of Commerce for operation in 1950, or this year if the league can obtain an eighth club by April 1. The Zanesville team will be backed as a farm club by the Cleveland Indians.**

League President Frank M. Colley appointed a committee at yesterday's meeting to consult Richmond officials about returning that city to the league.

Colley said other cities will be contacted if Richmond is unable to operate. In addition to Mansfield they are: Anderson and Marion in Indiana; Findlay and Massillon in Ohio, and Wheeling and Huntingdon in West Virginia.

## Veeck Expects to Sign Four Holdouts Today

NEW YORK — (AP) — Bill Veeck, president of the Cleveland Indians, is encountering more difficulty than expected in getting some key members of his world championship combine in the fold.

Twenty game winners Gene Bearden and Bob Lemon and second sacker Joe Gordon still are dissatisfied over terms. Also listed as holdouts are infielder Johnny Berardino and catcher Hank Ruszkowski.

Veeck expects to sign Bearden, Lemon, Gordon and Berardino, who are at the tribe's Tucson, Ariz., base, today. Ruszkowski still is at his home in Cleveland.

★

**Ted Williams and Stan Spence, Boston Red Sox outfielders came to terms yesterday. Williams okayed a contract reportedly calling for $100,000. The slugging outfielder said he may retire after 1951 "if I have enough money."**

Boston Brave Catcher Phil Masi also put his name on the dotted line leaving outfielder Jef Heath the long brave balker.

★

Mike Guerra, Cuban catcher of the Philadelphia athletics, hasn't showed at the A's camp and manager Connie Mack is peeved. "Boston refused to pass on Guerra last year," Mack said. "Maybe they'll claim him again," he added. However, Mack didn't say he placed Huerra's name on the waiver list.

Gran Hamner is off to a great start in his bid to take the shortstop berth away from his Philadelphia Phillie teammate, Eddie Miller. Hamner belted out a homer, double, and three singles and drove in five runs in an intra-squad game yesterday.

★

Pittsburgh Pirate manager Bill Meyer is giving plenty of attention to rookie pitcher Bill Lathrope who won 20 and lost 3 for Santa Rosa last year. Meyer also likes the work of Bill Werle, up from San Francisco ... The Brooklyn Dodgers are practicing the pick off play made famous by the Cleveland Indians in the world series. Augie Galan, veteran outfielder signed as a free agent by the New York Giants, demonstrated he still can hit. Galan belted a two-run pinch hit single in the Giants' first intra-squad game yesterday. New York Yankee manager Casey Stengel feels certain that Fred Sanford, secured from the St. Louis Browns for $100,000 will win 15 games easy. Sanford also is of the same opinion.

★

An old Cincinnati Reds' weakness—puny hitting—has popped up already.

Manager Bucky Walters had the boys out for their first intra-squad game yesterday but except for first baseman Ted Kluszewski's efforts there wasn't much in the way of good solid slugging.

Hank Sauer's sauerkrauts licked Grady Hatton's bombers, 5 to 4, in the first game of the spring training season with Kluszewski belting a home run and two singles.

★

SAN BERNARDINO, CALIF — (UP) — The battle for first base with the Pittsburgh Pirates reached a stalemate today after candidates Eddie Stevens and Les Fleming each chipped in with three hits in the first nine-inning intra-squad game yesterday.

One of Flemings blows, however, was a home run over the Perris Park right field wall which helped give the Goldie Holts an 8 to 4 victory over the John Riddles.

Crooner Bing Crosby, Pirate co-owner, was scheduled to make his first appearance to the training camp, but was forced to postpone the trip from Hollywood because of business.

# Mansfield Draws Fostoria In District Meet

## Bellevue Collides With Toledo Five

Mansfield Senior high school will meet Fostoria in the first round of Class A district tournament competition Friday at 7:30 p. m. on the Sandusky court.

Drawings for the tournament were made yesterday with Bellevue listed to meet Toledo Whitmer in the second contest. Finals in the Sandusky meet are listed for Saturday night with the winner advancing to the Toledo regional tournament.

Fostoria suddenly gained state-wide prominence two weeks ago by conking Findlay's state champions, 46 to 42. The Fostoria crew has 15 wins in 21 games while Mansfield has 16 in 23.

Findlay revenged the defeat by Fostoria Saturday night in the sectional finals, 38 to 35. In the semi-final round, Fostoria tripped Lima Central, 46 to 41. Central had beaten Mansfield early in the season, 59 to 49.

**TO BATTLE FINDLAY**

Bucyrus, which lost to Mansfield, 68-46, Saturday night, drew Findlay in the Findlay district meet Friday night. The other game at Findlay will pit Defiance against Toledo Central. Findlay has 18 wins and two losses while Bucyrus boasts 17 wins and two defeats.

**Ticket sale for Friday's Mansfield-Fostoria game will begin tomorrow at 8 a. m. at Senior high. Augie Morningstar, Tyger athletic director, announced that 400 tickets would be sold on a first-come, first-served basis. The tickets are 75 cents for adults and 40 for students.**

Morningstar said some additional tickets may be sold to Mansfielders Friday morning if other competing schools did not use their entire allotments.

Norm Kies, the former New York Yankee catcher, and Don Mewhart will officiate the Sandusky tourney.

Only 175 teams are still in the running for state titles, 88 in Class B and 87 in Class A. At the start of the state title chase, 215 Class A schools and 915 Class B outfits were in the running.

Both defending champions—Findlay in "A" and Eaton in "B"—are still in the running.

## Big Nine Champion Illinois Ends Regular Cage Season

CHICAGO—(AP)—Illinois has cleaned up with a be bop brand of basketball—"improvised, spur of the moment plays," as Harry Combes, 33-year-old home-grown coach, calls 'em.

"We have no definite set of plays," explains Combes, who in his second season has brought Illinois the Big Nine cage crown. "We feed the ball in to Center Wally Osterkorn and from then on anything can happen. We start improvising, like some guy bebopping or faking on a trumpet in a hot band."

Illinois' be-boppers wind up their regular season at Michigan tonight, entering the finale with a 10-1 conference record and an 18-2 mark for the whole campaign.

**GOPHERS IN SECOND**

Wisconsin's 45-43 upset of Minnesota Saturday night automatically passed the title to the Illini, regardless of tonight's outcome. The Gophers took second place with 9-3.

So smoothly has Illinois' improvization worked, that the well-balanced scoring club needs to tally only 26 points against Michigan to set a conference record. In 11 Big Nine contests, it has rolled up 730 points, better

## Small Arms Fire Good Defense For Paratroop Attack

COLUMBUS — (UP) — Hunters, all wives to the contrary, may be of some value after all.

J. Frank Atwood, president of the league of Ohio sportsmen, proposes that the 1,000,000 licensed nimrods would come in handy in case we are subjected to a paratroop invasion by a foreign power.

He thinks this shotgun toting army, trained on fast-flying pheasants and grouse, would be a "perfect defense" against such an attack.

"It is well known," he told a league meeting here yesterday, "that parachutists are particularly vulnerable to small arms fire. Every critical area in the entire state could be protected with guns or sportsmen against an enemy invading by air."

Atwood wants Ohio Adj. Gen. Leo M. Krever to consider this hunting army in any air defense plans.

## Pete Cooper Wins Tourney

ST. PETERSBURGH, FLA — (INS) — Pete Cooper, of Ponte Vedra Beach, Fla., walked away with $2,000 and the St. Petersburg open golf tournament title today and all because of a 12-foot putt.

The putt, which came on the 18th hole, broke a tie with Cary Middlecoff, of Memphis, Tenn., and gave Cooper a par 71 for a 275 total.

Middlecoff, who shot from 14 feet, missed by six inches and tapped in his second putt yesterday for a birdie four. That gave him a 68 but a 276 score.

However, his second place standing in the open tourney brought $1,400.

Tied for third place were Johnny Palmer, of Badin, N. C., and Bob Hamilton, of Landover, Md., who carded 277 each.

# Sport Scribe Knows Boxer Who'll Make Fine Champ

By JACK CUDDY

NEW YORK—(UP)—As Joe Louis hangs up his gloves, is there any youngster in the world who soon may succeed him as a great heavyweight champion?

We know but one—Roland La Starza of the Bronx.

Unbeaten La Starza, winner of 30 straight professional bouts, will be ready to shoot for the title next year. He should be capable then of wresting the crown from its temporary possessor—Ezzard Charles, Lee Savold, Jersey Joe Walcott or the like.

**Since this remarkable Bronx Italian is only 21 now, his reign may be long. And it may be glorious because of his punch, skill and clean living.**

La Starza hasn't attracted much national attention yet because he is being "brought along slowly" by Manager Jimmy De Angelo. But he'll command plenty of attention next fall when Jimmy begins to "move him up," and match him with all comers. De Angelo said today, "Roland will be ready for a title shot in June, 1950."

Last Friday night, La Starza stopped Gino Buonvino of Italy in the sixth round at Madison Square Garden. He floored the barrel-bodied visitor from Bari, Italy, three times during the scrap. Buonvino, 27, and more experienced, out-weighed the youngster, 204 pounds to 186.

**Buonvino is no contender. Nevertheless, he suffered only one previous defeat during two years of campaigning in the United States. Lee Savold of Paterson, N. J., was rocketed back to prominence last March 19 by his 54-second knockout victory over Buonvino. It was the fastest main-event kayo in Garden history.**

Buonvino, who had been a 3-1 favorite over Savold, claimed afterwards that blond Lee had caught him "cold." And Gino took no chances on being "cold-rocked" Friday night by the beautifully built, black-haired Bronx youngster who already had belted out 14 opponents.

Expert judges of fighting flesh like Joe Woodman, former manager of Sam Langford, and "Dumb" Dan Morgan, ex-pilot of Champions Jack Britton and Battling Levinsky, tabbed young Roland as a future champion many months ago.

**They pointed out to all who would listen that La Starza has the "fighting body." He stands five feet 10½ inches, and is still growing. He tapers down, like Maxie Baer, from unusually broad, powerful shoulders. But he is a much more skillful boxer than was Maxie, and he's a straighter puncher. And his reactions are much sharper.**

La Starza, former national Golden Gloves light heavyweight champion, included among his professional kayo victims big Gene Gosney of Seminole, Okla. He beat Bill Weinberg, and tagged with their first defeats Benny Rusk and Don Mogard.

Roland is more consistent and persistent than Bernie Reynolds of Fairfield, Conn.—another good prospect. La Starza is the only young heavy we know who is on the stairway to the stars.

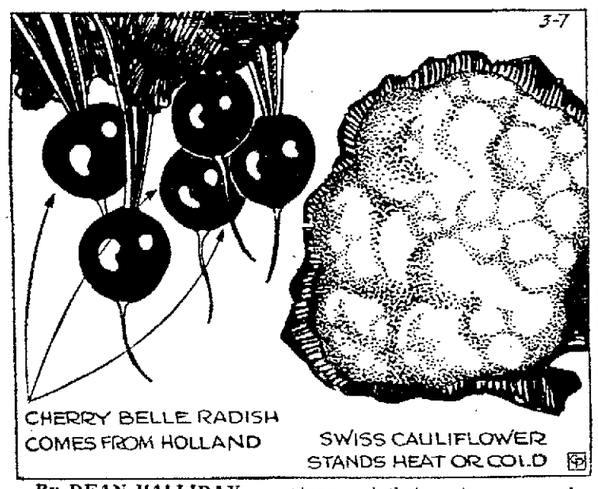
## Today's Garden Graph

## *New Vegetables Are Winners*



CHERRY BELLE RADISH COMES FROM HOLLAND

SWISS CAULIFLOWER STANDS HEAT OR COLD

By DEAN HALLIDAY

NEW VEGETABLES for 1949's 20 million home gardens include seven All-America prize winners.

Among them are a new and better summer squash, a newcomer lima bean, two outstanding varieties of lettuce, a glamor radish, a rugged cauliflower, and an all-weather sweet corn.

Illustrated in the accompanying Garden-Graph are the new radish, which comes from Holland, and the new Swiss cauliflower which withstands heat or cold.

The new radish is known as Cherry Belle because it is as round and red as a cherry. It won an All-America bronze medal because it stays crisp and firm at all stages and doesn't get pithy.

It can be sown for several crops before hot weather comes, being at its best when the nights begin to warm up. It has short tops and thrives in any garden soil. It grows uniformly to produce little globes which you will find to be the brightest red of all radishes in your garden.

Since in many parts of the country our springs are rugged for a cauliflower plant, which may freeze at first and then have to mature in summer heat, the new cauliflower, which won an All-America Honorable Mention, will be welcomed by home gardeners.

It hails from Switzerland and is known as Ideal Snowball. It will stand both heat and cold, and will head reliably under adverse weather conditions. It produces big white heads without ricing or

HERE is a pleasant little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your key number. Start at the upper left-hand corner of the rectangle and check every one of your key numbers, left to right. Then read the message the letters under the checked figures give you.

# Pupils See Amateur Show at Noon

By JANET NEAL AND JANISE SMITH

An amatuer show was featured as noon entertainment last week in charge of the student council under the supervision of Miss Margaret Wheeler, advisor. Admission charge for the program was thirty cents worth of tax stamps.

Judges were Mr. G. W. Harmony, Miss Jeanne Worley, and Miss Ellena Percy.

Seven students of Miss Percy's ninth grade girls' glee club have organized an ensemble. They are Genevive Hartig, Edith York, Janet Neal, Hermina Rehberg, Mary Benson, Nancy Wolf, and Carolyn Miller.

The glee club has taken a poll of all the songs learned this year to find which was most popular. "Nocturne" is the song which topped most of the lists.

The girls' all-star basketball team has chosen three managers: Gay Rosenberg, Sandra Theaker, and Cynthia Cretors

**The girls' basketball intramurals have been going right along. Two very exciting games were played last week. In the first game, room 205 overcame an early 7-0 lead, and defeated room 109 by the score of 14-10. Shirley Mott was the biggest scoring threat in this game.**

In a wild game, which saw twenty-odd fouls, room 114 defeated room 103, 10-5. Sandra Theaker and Shirley Dunham shared scoring honors in this game, which kept the officials busy every second.

A new 8-by-5 foot flag was presented to Principal G. W. Harmony by Dwight McCullough of the American Legion for use at the school.

Plans are being made for the dance sponsored by the ninth grade, to be held March 18.

Sue. Ann Schwab has been seen sporting a beautiful suntan acquired while she was in Florida. Other Appleseed students spending the winter months in the sunny south are Mary Anita Raklets and Bob Lynch.

Miss Lois Schnitzer, a student from Ashland College, majoring in physical education has been visiting several of Mrs. E. V. Bradley's gym classes to observe the different types of teaching. After a few weeks, she will teach some of the classes herself.

Pictures were taken this week by R. Y. Davis of the ninth grade girls' glee club, the all-star basketball team, and the girls' Leaders. .

# Charges U. S. Fires 'Security Risks', U. N. Hires Them

## Mundt Asks Crackdown On Commies

### Congress to Get Three New Bills

WASHINGTON — (UP) — Sen. Karl E. Mundt, R., S. D., said today that some Americans, fired by the State Department as "security risks" have later turned up in the employ of the United Nations.

**He said it is time the United States took the question to the UN where "we should insist that any Americans hired for the organization be screened by the State Department first."**

Munlt said the House un-American Activities Committee, on which he served last year before his election to the Senate, has the names of ousted State Department employes later hired by the UN.

The South Dakota Republican made his statement as he prepared to introduce legislation to restrict the activities of the Communist party in this country. All he would say about the measure was that it would be "much tougher" than last year's Mundt-Nixon bill which he helped write.

Sen. Homer Ferguson, R., Mich., also planned to introduce communist-control legislation in the senate. Ane Rep. Francis E Walter, R., Pa.; was preparing a bill to take away citizenship of alien communists who have taken out naturalization papers.

Mundt, Ferguson and Walter were among several congressmen demanding a crackdown on communist activities in the wake of the arrest in New York of a Justice Department employe and a Russian engineer attached to the United Nations. The pair are accused of conspiring to steal secret U. S. documents.

Elsewhere on Capitol Hill:

NATIONAL DEFENSE — Congressional sentiment appeared to be in favor of changing the unification act of 1947 along the general lines of President Truman's new proposals. The President would promote the defense secretary to be a super-chief with over-all authority for direction and control of the secretaries of Army, Navy and Air Force.

SPY BILL — A bill to put new steam behind the U. S. spy machine went to the house floor today with its sponsors calling for quick approval and a minimum of debate.

LABOR LAW — A house labor subcommittee, already committed to repeal the Taft-Hartley law, begins 10 days of hearings today on the administration's new labor bill.

PACT — Chairman Tom Connally said his Senate Foreign Relations Committee probably will vote late today to approve the administration's request of $5,580,000,000 for the next 15 months of Marshall plan operations.

JUSTICE — The House Armed Services Committee opened hearings on a pentagon plan to establish a uniform code of military justice for the armed forces.

## VA Payments Tax Exempt

Veterans who received any payment from the Veterans' Administration in the past year have been reminded by G. D. Weidemaier, Mansfield VA office manager, that none of that money is taxable for federal income tax purposes.

Tax-exempt VA payments include readjustment allowances, subsistence payment for vets in schools, on-the-job, or on-farm training programs, VA payments applied to GI loans, and any other gratuity payment to veterans administered by the VA.

## Smith Asks Less Legal Phraseology

### Bill Demands 'Clear' English

By REED SMITH

COLUMBUS — (AP) — Anyone ever hopelessly lost in Ohio's wondrous legal labyrinth without a seeing-eye lawyer should be very fond of Rep. John L. Smith (D-Summit).

**He wants the laws written in "every day" English for everyone to understand.**

The handsome Barberton attorney has introduced a bill in the House of Representatives to do just that.

He said today a survey of Ohio laws shows many of them "ambiguous and conflicting." It may stand as the understatement of the year.

Smith wants two full-time clerks hired for the legislative reference bureau where most bills are dressed up. They would get $3,600 a year to put new statutes in simple language.

Not that Smith means to criticize the bureau. It does a great job, but, Smith says:

"It has been following a pattern in vogue in Congress and the state legislature for years. The time has come for Ohio to take the lead in changing this pattern.

"It's difficult for the lawmakers themselves to understand some of the bills. And that isn't strange.

**"Some bills are so confusing and legalistic in their language they would stump an expert."**

And John Smith may have something there. Here's a sample at random from a uniform partnership act now pending in the General assembly. In the middle of page 6, it reads:

"Sec. 8105-16. When a person, by words spoken or written or by conduct, represents himself, or consents to another representing him to any one, as a partner in an existing partnership or with one or more persons not actual partners, he is liable to any such person to whom such representation has been made, who has, on the faith of such representation, given credit to the actual or apparent partnership, and if he has made such representation or consented to its being made in a public manner he is liable to such person, whether the representation has or has not been made or communicated to such person so giving credit by or with the knowledge of the apparent partner making the representation or consenting to its being made."

Of course, that's clear enough! But if Smith can get it broken into little pieces and keep it legal, he may have something.

# Jailed After 3 Weeks' Probation

### Man Bound Over In Surry Road Break-In

Placed on probation three weeks ago after being convicted on a breaking and entering charge, Walter Phillips, 30, of 335 Cedar street, today was charged with a robbery on March 4 at the J. E. Hall Distributing company, 53 Surry road.

**Phillips and a companion, Bill George Ewald, who gave his address as the Newman hotel, 316 North Main street, entered pleas of innocent to the charge of breaking and entering when they appeared in municipal court today. They waived preliminary hearings and were bound to the grand jury on $2,000 bond each.**

They failed to post bond and were placed in the county jail.

Detectives said the arrest also cleared up a robbery at the Economy Coal company, 36 Surry road, that occurred the same night.

The two men were arrested by Patrolman Butler in the vicinity of the J. E. Hall Distributing company after the policeman on regular patrol noticed a window was broken at the building. The arrest occurred shortly after 4 a. m. on March 4.

**Phillips was released on a five-year probation period Feb. 18 after he had been convicted on a breaking and entering charge. He had also been convicted, in 1947, of grand larceny, police records disclosed.**

Property valued at $18 and $3 cash was reported stolen from the Hall company.

Named as defendants in the suit were Attorney General Tom C Clark; Seth W. Richardson, chairman of the loyalty review board, and other board members; Postmaster General Jesse M. Donaldson, an dthree members of the post office loyalty board.

The postal employes all are members of the Federal Employes Defense committee, an organization of government workers facing action under Mr. Truman's loyalty order. They are being represented by a law firm headed by O. John Rogge, former assistant U. S. attorney general.

# Hunters vs. Parachutists

COLUMBUS —(UP)— Hunters, all wives to the contrary, may be of some value after all.

J. Frank Atwood, president of the league of Ohio sportsmen, proposes that the 1,000,000 licensed nimrods would come in handy in case we are subjected to a paratroop invasion by a foreign power.

**He thinks thiss hotgun toting army, trained on fast-flying pheasants and grouse, would be a "perfect defense" against such an attack.**

"It is well known," he told a league meeting here yesterday, "that parachutists are particularly vulnerable to small arms fire. Every critical area in the entire state could be protected with guns or sportsmen against an enemy invading by air."

Atwood wants Ohio. Adj. Gen. Leo M. Kreber to consider this hunting army in any air defense plans.

# Air Guard Hangars Here

Four railroad flat cars of hangar assembly parts are being delivered at the Municipal airport today, according to A. Clayton Tschantz, airport manager.

Tschantz said it would be some time before the hangars, to be used by the 164th Air National Guard squadron, can be erected. A concrete foundation must be built before building begins.

The hangars are a part of the huge Air Guard installation at the airport, scheduled for this spring. The buildings will cost well over $1,000,000.

**ARTIST DIES**

YOUNGSTOWN —(AP)— Celon E. Hollingsworth, 80, widely known artist and writer died at his home here today.

# 'Frontier' Bolstered

WASHINGTON —(AP)— Western governments still puzzling over the Moscow foreign ministry shakeup are acting speedily to bolster their "frontier" against communism.

**The main conviction in Washington, London and Paris is summed up by diplomats this way: whether Moscow's diplomacy toward the west gets tougher, softer or continues unchanged the primary responsibility of the Western powers now is to be prepared to meet any contingency.**

Responsible authorities here believe the removal of V. M. Molotov from the foreign ministry and his replacement by Andrei Vishinsky, a man of lesser standing in Russia, means the Soviets are about to intensify their internal programs and let up on communist expansion temporarily. This may mean a new period of extreme Russian isolationism.

It may also mean further communist crackdowns on the satellite countries of eastern Europe to secure absolute control over the governments and peoples of the region.

A few informants believe Premier Stalin and his associates in the politburo may be preparing a spring showdown with Marshal Tito over control of Yugoslavia. American officials say they would not be surprised if Russia and some of its completely controlled states neighboring Yugoslavia should move openly to crush Tito.

# Charges U. S. Fires 'Security Risks', U. N. Hires Them

## Mundt Asks Crackdown On Commies

### Congress to Get Three New Bills

WASHINGTON — (UP) — Sen. Karl E. Mundt, R., S. D., said today that some Americans, fired by the State Department as "security risks" have later turned up in the employ of the United Nations.

**He said it is time the United States took the question to the UN where "we should insist that any Americans hired for the organization be screened by the State Department first."**

Munlt said the House un-American Activities Committee, on which he served last year before his election to the Senate, has the names of ousted State Department employes later hired by the UN.

The South Dakota Republican made his statement as he prepared to introduce legislation to restrict the activities of the Communist party in this country. All he would say about the measure was that it would be "much tougher" than last year's Mundt-Nixon bill which he helped write.

Sen. Homer Ferguson, R., Mich., also planned to introduce communist-control legislation in the senate. Ane Rep. Francis E. Walter, R., Pa.; was preparing a bill to take away citizenship of alien communists who have taken out naturalization papers.

Mundt, Ferguson and Walter were among several congressmen demanding a crackdown on communist activities in the wake of the arrest in New York of a Justice Department employe and a Russian engineer attached to the United Nations. The pair are accused of conspiring to steal secret U. S. documents.

Elsewhere on Capitol Hill:

NATIONAL DEFENSE — Congressional sentiment appeared to be in favor of changing the unification act of 1947 along the general lines of President Truman's new proposals. The President would promote the defense secretary to be a super-chief with over-all authority for direction and control of the secretaries of Army, Navy and Air Force.

SPY BILL — A bill to put new steam behind the U. S. spy machine went to the house floor today with its sponsors calling for quick approval and a minimum of debate.

LABOR LAW — A house labor subcommittee, already committed to repeal the Taft-Hartley law, begins 10 days of hearings today on the administration's new labor bill.

PACT — Chairman Tom Connally said his Senate Foreign Relations Committee probably will vote late today to approve the administration's request of $5.580,000,000 for the next 15 months of Marshall plan operations.

JUSTICE — The House Armed Services Committee opened hearings on a pentagon plan to establish a uniform code of military justice for the armed forces

## Smith Asks Less Legal Phraseology

### Bill Demands 'Clear' English

By REED SMITH

COLUMBUS — (AP) — Anyone ever hopelessly lost in Ohio's wondrous legal labyrinth without a seeing-eye lawyer should be very fond of Rep. John L. Smith (D-Summit).

**He wants the laws written in "every day" English for everyone to understand.**

The handsome Barberton attorney has introduced a bill in the House of Representatives to do just that.

He said today a survey of Ohio laws shows many of them "ambiguous and conflicting." It may stand as the understatement of the year.

Smith wants two full-time clerks hired for the legislative reference bureau where most bills are dressed up. They would get $3,600 a year to put new statutes in simple language.

Not that Smith means to criticize the bureau. It does a great job, but, Smith says:

"It has been following a pattern in vogue in Congress and the state legislature for years. The time has come for Ohio to take the lead in changing this pattern.

"It's difficult for the lawmakers themselves to understand some of the bills. And that isn't strange.

**"Some bills are so confusing and legalistic in their language they would stump an expert."**

And John Smith may have something there. Here's a sample at random from a uniform partnership act now pending in the General assembly. In the middle of page 6, it reads:

"Sec. 8105-16. When a person, by words spoken or written or by conduct, represents himself, or consents to another representing him to any one, as a partner in an existing partnership or with one or more persons not actual partners, he is liable to any such person to whom such representation has been made, who has, on the faith of such representation, given credit to the actual or apparent partnership, and if he has made such representation or consented to its being made in a public manner he is liable to such person, whether the representation has or has not been made or communicated to such person so giving credit by or with the knowledge of the apparent partner making the representation or consenting to its being made."

Of course, that's clear enough! But if Smith can get it broken into little pieces and keep it legal, he may have something.

D. 4, collided with a dump truck, driven by Earl Marvin Shanks, of Mansfield, R. D. 2, the Mansfield State Highway patrol reported.

Dr. Boyer and his passenger, Virgil Tompkins, 18, of Grafton, R. D. 1, were treated for injuries in the accident at Samaritan hospital, Ashland, and released. Patrolmen said Tompkins suffered contusions of the chest and concussion. Shanks was not injured.

# Jailed After 3 Weeks' Probation

### Man Bound Over In Surry Road Break-In

Placed on probation three weeks ago after being convicted on a breaking and entering charge, Walter Phillips, 30, of 335 Cedar street, today was charged with a robbery on March 4 at the J. E. Hall Distributing company, 53 Surry road.

**Phillips and a companion, Bill George Ewald, who gave his address as the Newman hotel, 316 North Main street, entered pleas of innocent to the charge of breaking and entering when they appeared in municipal court today. They waived preliminary hearings and were bound to the grand jury on $2,000 bond each.**

They failed to post bond and were placed in the county jail.

Detectives said the arrest also cleared up a robbery at the Economy Coal company, 36 Surry road, that occurred the same night.

The two men were arrested by Patrolman Butler in the vicinity of the J. E. Hall Distributing company after the policeman on regular patrol noticed a window was broken at the building. The arrest occurred shortly after 4 a. m. on March 4.

**Phillips was released on a five-year probation period Feb. 18 after he had been convicted on a breaking and entering charge. He had also been convicted, in 1947, of grand larceny, police records disclosed.**

Property valued at $18 and $3 cash was reported stolen from the Hall company.

Oils, metals, and airlines were mostly higher, but chemicals, rubbers, and mail order and retail shares were lower. Utilities tended lower, although a number were unchanged.

# Galion Seeks School Site Property Bid

### Work Progressing On South Building

GALION — While action again has been delayed on the site for the new North elementary school in Galion, further progress is being made in the construction of the South elementary building for which excavation already has been made.

**The board of education at its meeting, Friday night authorized advertisement for sale at auction of the W. R. Hessenauer property on the South school site. The property was purchased by the board to make room for the new building.**

Wrecking of the present South school will begin soon after March 11 which has been set for the last day of school at the building.

Beginning March 14, pupils will start half-day sessions at the Junior High building until the end of the present school year.

# Hunters vs. Parachutists

COLUMBUS —(U.P.)— Hunters, all wives to the contrary, may be of some value after all.

J. Frank Atwood, president of the league of Ohio sportsmen, proposes that the 1,000,000 licensed nimrods would come in handy in case we are subjected to a paratroop invasion by a foreign power.

**He thinks thiss hotgun toting army, trained on fast-flying pheasants and grouse, would be a "perfect defense" against such an attack.**

"It is well known," he told a league meeting here yesterday, "that parachutists are particularly vulnerable to small arms fire. Every critical area in the entire state could be protected with guns or sportsmen against an enemy invading by air."

Atwood wants Ohio. Adj. Gen. Leo M. Kreber to consider this hunting army in any air defense plans.

# Fined After Car Hits Bus

Charged with unsafe operation after his automobile collided with a city bus at 8 p. m. Saturday on North Park street, Clinton Crawford, 332 East Second street, pleaded guilty and was fined $15 and costs in municipal court today. His driver's license was suspended for 15 days.

Jack C. McMullen, 250 Chester avenue, was found guilty of unsafe operation and fined $10 and costs. He was arrested after his car collided with another owned by Raymond E. Hord, Bucyrus, at the intersection of West Fifth and Mulberry streets, Saturday.

Two men forfeited bonds of $25 each when they failed to appear in municipal court today. They were Adelbert H. Benson, 38, Lodi, arrested for speeding on March 4, and James H. Kelly jr., 270 East Second street, arrested for failing to yield the right-of-way to a pedestrian crossing at Wayne and Orange streets on Feb. 25.

### Deafened People May Now Hear Clearly

Science has now made it possible for the deafened to hear faint sounds. It is a hearing device so small that it fits in the hand and enables thousands to enjoy sermons, music and friendly companionship. Accepted by the Council on Physical Medicine of the American Medical Association. This device does not require separate battery pack, battery wire, case or garment to bulge or weigh you down. The tone is clear and powerful. So made that you can adjust it yourself to suit your hearing as your hearing changes. The makers of Beltone, Dept. 6, 1450 West 19th St., Chicago 8, Ill., are so proud of their achievement that they will gladly send free descriptive booklet and explain how you may get a full demonstration of this remarkable hearing device in your own home without risking a penny. # Air Guard Hangars Here

Four railroad flat cars of hangar assembly parts are being delivered at the Municipal airport today, according to A. Clayton Tschantz, airport manager.

Tschantz said it would be some time before the hangars, to be used by the 164th Air National Guard squadron, can be erected. A concrete foundation must be built before building begins.

The hangars are a part of the huge Air Guard installation at the airport, scheduled for this spring. The buildings will cost well over $1,000,000.

# 'Frontier' Bolstered

WASHINGTON —(AP)— Western governments still puzzling over the Moscow foreign ministry shakeup are acting speedily to bolster their "frontier" against communism.

**The main conviction in Washington, London and Paris is summed up by diplomats this way: whether Moscow's diplomacy toward the west gets tougher, softer or continues unchanged the primary responsibility of the Western powers now is to be prepared to meet any contingency.**

Responsible authorities here believe the removal of V. M. Molotov from the foreign ministry and his replacement by Andrei Vishinsky, a man of lesser standing in Russia, means the Soviets are about to intensify their internal programs and let up on communist expansion temporarily. This may mean a new period of extreme Russian isolationism.

It may also mean further communist crackdowns on the satellite countries of eastern Europe to secure absolute control over the governments and peoples of the region.

A few informants believe Premier Stalin and his associates in the politburo may be preparing a spring showdown with Marshal Tito over control of Yugoslavia. American officials say they would not be surprised if Russia and some of its completely controlled states neighboring Yugoslavia should move openly to crush Tito.

### Lausche Calls Economy Session

COLUMBUS—(AP)— Gov. Frank J. Laushe today moved toward state-wide economy to meet "the financial situation that confronts the state."

He called a meeting of his cabinet for this afternoon (2 p. m.) to discuss "economy measures and everything pertaining to the financial situation."

# Stricken While Driving In City

Charles Fike, 60, Bellville, narrowly escaped going over an embankment on East First street at 9 a. m. today when he suffered a stroke while driving.

His car careened into another auto parked in front of 273 East First street then went down the street until it was stopped by a utility pole support wire just short of the embankment.

There was no damage to the car and Fike's condition is reported as "fair" by hospital officials.

## Alliance Presents Pattern For Action

**IT MAY BE** no more than a sporadic awakening of public conscience that has come about in Alliance in recent days, but in any event a formula has been presented which suggests methods of action in case any other Ohio cities care to insist on law enforcement in their communities.

The Alliance situation as to laxity in law enforcement has been revealed as including wide-open gambling, illegal liquor sales and prostitution.

As is customary, the Alliance Ministerial association criticized conditions but lacked laymen support until the extent of underworld operations was brought into the open.

Then came a protest to the mayor by the Junior Chamber of Commerce of Alliance and at the week-end a strongly worded statement by the city's Chamber of Commerce, in which the mayor was called upon to enforce the laws.

Some excerpts from the Chamber of Commerce statement provide an illuminating view of common aspirations of law-abiding citizens of any community, as, for instance:

**"This board is concerned with having the type of city in which all of us can live happily, earn a decent and adequate living, and rear our sons and daughters to become the best type of religious, conscientious American citizens, proud of their home city.**

"Obviously this means we must have a law-abiding city in which law agencies provide adequate protection through reasonable enforcement. . . . This board therefore takes the position it must insist upon law enforcement on the part of our city officials, with an unfettered police department."

An interesting sidelight is found in a report from Canton, county seat of Stark county, in which Alliance is located, that the sheriff says he was offered a bribe of $10,000 and his choice of any make of a new automobile, if he would "play ball" with gambling operators. He is quoted as saying that the offer was made in a telephone call to his home, and was refused.

Considered in association with the attitude of Mansfield's Mayor Roy W. Vaughn and Police Chief Jesse J. Schwab in permitting the return of commercialized gambling to this city last April 1, after a two-months' ban, procedure in Alliance seems equally fitted to the local scene.

## Preparedness Is U. S. Objective

**WHEN** the recent non-stop globe-circling flight was made by an Air Force bomber, Lieut. Gen. Curtis E. LeMay, chief of the Strategic Air Command, was asked: "Does this mean you can deliver an A-bomb anywhere in Russia?" His reply was: "Let's say any place that would require an atomic bomb".

The difference in attitude between the question and the answer may be subtle, but it is the difference between warmongering and defense. If we are developing our military forces with the aim of making them able to strike at any point in Russia or deal with any threat Russia might offer, then we would really seem to be preparing for war with Russia.

But if we are bent on building a system of national defense capable of dealing with any threats which conceivably might arise, from whatever source, then we are only erecting legitimate defenses.

It is good to learn that one highly placed military man, at least, is thinking in terms of defending the nation, and not of war with an enemy already chosen.

## When Politics Hampers Efficiency

**WHAT** it would cost, in political terms, to reorganize the government on the basis of the Hoover Commission recommendations is grimly illustrated by the plan for the post office department. It proposes that the postmaster general be barred from holding also the post of party national chairman, that postmasters be career men chosen for merit rather than politics, without Senate confirmation. It proposes decentralization of the system, and reforms in administration and setting of rates.

To abolish the political prerogatives of the department head, and the political appointment of postmasters, would be a severe blow at the patronage system. There are about 42,000 postmasters, who by custom are appointed from among the most faithful local workers of the party to which the president belongs. As the appointments must be confirmed by the Senate, the local appointee also must be acceptable to his senator, unless that gentleman happens to be of the other political party.

Naturally politicians will be loath to give up this large and useful piece of patronage, and so the effort to win approval for the Hoover program for the post office department will likely have hard sledding. In varying degree, reorganization of other departments for the sake of efficiency also would hurt political machinery.

## Branch Railroads Become Outmoded

THE AUTOMOBILE has claimed another victim, not human but mechanical. The Virginia & Truckee railroad, which years ago carried the wealth of Nevada's silver mines, has applied to the interstate commerce commission for permission to go out of business. This means the last of the yellow coach and old-time locomotive, recalling the Toonerville Trolley, which delighted visitors to Reno or Minden, the limits of the line.

The automobile and the motor truck killed the Virginia & Truckee, as they have slain many another branch road Ferry boats and lake steamers also have suffered loss of business.

One wonders if motor transportation in its turn will some day be driven out of business by some later form, such as the airplane.

# India's Women Coming Into Their Own

THE NEW India continues to pursue her destiny with seven league strides.

The latest of many striking indications of her determination to modernize her way of life is the introduction in the national legislature of a bill which would revolutionize the status of Indian women.

**This measure would make sweeping changes in ancient customs of the Hindu religion. For instance, plural marriage would be abolished, and women would be allowed the privilege of obtaining divorces.**

It is interesting to find Law Minister B. R. Ambedkar sponsoring this measure. Dr. Ambedkar, whom I visited in his New Delhi home on my last trip to India, was born into that outcast class known as the "untouchables," and has spent his life championing their cause. He has a deep feeling for any class of society which is deprived of its rights.

As was to be expected, the bill has run into a storm of opposition in parliament. The chief protest comes from orthodox Hindus and is mainly on religious grounds.

So we shouldn't assume that the bill will pass. However, we may take it as an encouraging sign of the times.

Whether the measure is adopted, the fair sex of India is coming into its own, as is clearly indicated by the fact there are women members of the Indian legislature and of the Pakistan legislature. Prime Minister Nehru's sister, Mrs. Vijava Lakshmi Pandit, is ambassador to Russia and also is India's chief representative at the United Nations

That's a great change from what I found on my first visit to India more than thirty years ago. The spirit of progress was in the air, but it was largely a man's world. Except for the lowest class, women as a whole were kept in purdah. That is, they were secluded from the company of men not members of their own family and were closely veiled in public.

I encountered a particularly interesting example of such seclusion when I was the guest of the late Maharajah of Bikanir, one of the greatest of the ruling princes. He was liberal and progressive, but his maharani lived in strict seclusion.

The prince was deeply in love with his princess and among the things he had done for her happiness was build a beautiful garden close to the palace. In this garden was a fine tennis court, and he used to play tennis with her most days.

But that garden was surrounded by a high wall, so that none could see into the grounds. And when the maharani went with her ladies-in-waiting from the palace to the garden, some 25 yards away, they proceeded by a carefully curtained automobile.

**They reached the car through a canopy which was put up between the palace door and the automobile. Still, that was custom, and nobody seemed to question it.**

Purdah still exists in India. You even find purdah girls in some of the universities. But it is on its way out, and women are coming into their own.

# Forrestal's Sad Plight

By MARQUIS CHILDS

THE DEPARTURE of James Forrestal as secretary of defense had been the subject of speculation for so long that his usefulness was pretty well impaired. But even before the speculation began Forrestal was faced with an impossible situation.

He had failed to resolve the increasingly bitter and prolonged dispute between the Army, Navy and air force. Whether he had the power to resolve it under the Unification Act is debatable. Forrestal thought he didn't have.

**But the fact remains that the dispute was allowed to go to extraordinary lengths, impeding the whole defense-security program. Major decisions simply were not made.**

In the course of the long service feud, within the joint chiefs of staff and at every other level, Forrestal was regarded by Army and Air Force as a Navy man. The other two services considered the decisions he did take as favorable, invariably, to the Navy.

A great deal of the controversy centered around a very large and costly bone of contention—the Navy's super-aircraft carrier to be named the U. S. S. United States. Air Force planners have from the first regarded the giant carrier as an opening wedge by the Navy to invade the field of strategic air power.

When the U. S. S. United States was first announced more than a year ago, its estimated cost was $125,000,000. The Navy estimate today is $188,000,000 The latter figure, according to the Navy, includes ordnance.

Within the Air Force they insist that at least another $30,000,000 must be added for equipment. Furthermore, they say that bomber planes big enough to carry the atomic bomb must be designed entirely from scratch if they are to land on the deck of even a giant carrier.

* * *

**Battle of the Services.**

THAT is the crux of the argument. The Navy argues the great mobility of planes launched from a floating base—the aircraft carrier. In this way all strategic areas in Soviet Russia are within range of the atom bomb.

The Air Force is convinced that the U.S.S. United States would be the target for thousands of fighter planes once an enemy believed it carried atomic bombs. Furthermore, they argue that the cost is not $188,000,000 but closer to a billion dollars, since the U.S.S. United States would inevitably have to be provided with a costly screen of destroyer escorts, submarines and so on.

Forrestal's successor, Louis A. Johnson, comes to this very difficult assignment with a background of three years — from 1937 to 1940 — as assistant secretary of war. That can be a help, in that it has given him a lot of experience, and it can be a handicap in raising suspicions in advance as to his objectivity.

If persistence means anything, Johnson should do well in his new job. As was told in this space some time ago, Johnson has campaigned relentlessly to be appointed defense secretary. He and numerous friends have pressed his claim on the President.

**That claim, politically speaking, is a real one. Johnson agreed in the middle of the campaign last fall to serve as finance chairman for the Democrats when no one else would take on what seemed to be a hopeless task.**

He agreed on the stipulation that he first have a private talk with the President and what was said at that talk has been kept a secret by the two men.

Johnson has loyal friends, who admire his capacities, as well as bitter enemies. In the narrow sense at least this is a political appointment. The president has given a vital post to a party man who served him well in a time of dire need. Therefore, Johnson will be under particularly close scrutiny.

The public and Congress will want to know whether he has the essential statesmanship as well as political loyalty.

## As Cerf Tells It

An English wit (maybe it was Joe Miller) once declared that he could make a spontaneous pun about any subject the company present could offer. "All right," spoke up one gentleman. "Let us have a pun about the king." Without hesitation, the wit pointed out. "The king is not a subject."

## *Washington Merry-Go-Round*

# Johnson Well Qualified For New Post

*(Editor's Note—The brass ring, good for one free ride on the Washington Merry-Go-Round, today goes to Louis A. Johnson, new secretary of national defense.)*

* * *

By DREW PEARSON

WASHINGTON — If past experience is a criterion, no man in the USA is better qualified to be secretary of national defense today than the boyish, energetic, pipe-smoking lawyer from Clarksburg, W. Va., Louie Johnson.

Johnson has spent a good part of the past eleven years dreaming of the day when he might attain this all-important post, and, based on past record, he deserves it.

**A half-dozen major moves inside the war department can be chalked up to Johnson, without which many more American boys would have lost their lives. The most important of these were "educational orders" of munitions.**

This was a system by which American industry received small war department orders for tanks, machine guns, artillery, etc., for educational purposes. This gave factories a chance to get their machine tools in shape, with the idea that, following this experimentation, large-scale production could begin in a hurry—if war broke.

Johnson put this into effect as early as 1938, three years before Pearl Harbor, and at a time when U. S. steel moguls were sitting in Europe working out a world steel cartel with the nazis.

* * *

**War Department Feud.**

HE ALSO put it into effect despite the fact that his chief, Secretary of War Woodring, was opposed to war preparation and did not believe that war was imminent.

Johnson's farsightedness, however, enabled the United States to mobilize industry in almost record time and to bear the brunt of supplying the allied armies.

Johnson's other major achievements as assistant secretary of war were pushing airplane production for the French and British long before Pearl Harbor, when Congress was opposed to supplying planes to the Allies; urging and pioneering the Alaskan highway as early as 1938 long before anyone ever dreamed Alaska would have to be fortified; urging increased electric power for war centers; and developing close economic and military ties with Latin America.

**During the period he accomplished these things, Johnson, as assistant secretary of war, was in a constant feud with his secretary of war, Harry Woodring. The feud would have been comic had it not been for possible tragic consequences.**

Woodring, one of the most likable men who ever came out of Kansas to Washington, and inherited the all-important post of secretary of war by accident—upon the death of George Dern. Something of an isolationist, he was not enthusiastic about a big national defense program. Johnson was.

Therefore, all Johnson's work had to be done either on the side or by going over the head of his chief. Some Army officers, taking advantage of this, played Woodring off against Johnson and vice versa, until it was a miracle that the Army, by the time of Pearl Harbor, was as well prepared as it was.

* * *

**Small-Town Lawyer.**

LIKE a lot of things in life, Johnson's entry into politics was sheer coincidence. Graduated in law from the University of Virginia, he decided to practice in a town in which he was a complete stranger, and went to Clarksburg, W. Va., in 1912. At the time of his arrival, a local sheriff had been arrested for embezzlement, and a lawyer was needed to act as prosecutor.

Johnson took the job, fought the case up to the Supreme Court and, as a result of the publicity, ran for mayor of Clarksburg. This was just two years after coming to live in West Virginia. Johnson lost the mayoralty race by about 50 votes, but shortly thereafter was elected to the state legislature and became Democratic leader of the House.

The first World War came. Johnson was mustered out as a captain of the 80th Infantry Division, and on the day he retired, he had the nerve to write a letter to the chief of staff telling him how to reform the Army. He will now have a chance to carry out those ideas.

**Probably Johnson's biggest handicap is his naive trust in people—sometimes in people who have double-crossed him. He is inclined to believe that everyone is his friend—though a lot of them aren't.**

Johnson is one of the few war department executives who has not been afraid to put the brass in their place. Most civilian secretaries of war lean so heavily on the top brass that the constitutional concept of civilian control over the Army is voided. Johnson, however, not only knows the military establishment from A to Z, but isn't afraid to tell the brass where to get off.

# What Next In Germany?

By THOMAS L. STOKES

WASHINGTON — It is about time for us to recognize the cheerless fact that our war-born ideal to create a different sort of Germany, a truly democratic Germany freed from the stranglehold of the powerful financial industrial clique that precipatated two world wars, has become badly tarnished.

Whether it is entirely beyond hope of redemption remains to be seen. This may depend upon whether the change in the top command of our national defense establishment, which has been most influential in German policy, also will bring a change in the policy hitherto directed largely by James Forrestal, who is retiring as defense secretary, and William H. Draper, jr., who retired a few days ago as under secretary of war.

**Their withdrawal has been regarded, at least, as a necessary prerequisite to a shift of course. For what is needed is a change of mind and attitude.**

They represented the international finance viewpoint tolerant to such interests in Germany. It was only natural to their background. Both came from long careers as investment bankers, Mr. Forrestal from the presidency of Dillon, Read and company of New York, and Mr. Draper from the vice presidency of that same firm which had interests in prewar Germany.

Any forecasts about what their retirement means, so far as Germany is concerned, would be premature. For the policy they evolved is the result of gradual steps which it may not be possible to reverse at this late date, particularly in view of the continually critical Russian situation that provided an excuse and a cover for rebuilding German industrial power under old auspices and which may be used as an excuse and cover henceforth.

* * *

**Clever Manipulation.**

GERMANY cleverly has played off the United States and Russia against each other. How well she thinks she has done and what she regards as the established United States attitude are indicated in the latest development to attract attention here.

In what otherwise might be labeled plain effrontery, German officials included half a dozen men identified with the old nazi regime among the twelve recommended to us and Great Britain as trustees for the German steel industry which, under a military government order of several weeks ago, is to be returned to German management along with Ruhr coal and iron industries.

They probably were emboldened to do this by other indications of leniency to ex-nazis by the United States regime and by the almost complete abandonment several months ago of the anti-cartel program designed to break up big German monopolies that supplied Hitler's war.

**The British, jointly responsible for policy, are reported surprised at our soft attitude: but they are hardly in a position to offer much resistance because of their obligations to us under the European Recovery Program.**

The future of Germany is largely in our hands.

What is involved is a whole system that we fought in the war and pledged ourselves to change. Germany was at the core of it, because Germany was, and is, at the core of Europe economically.

Our policy has reflected an attitude not represented by our war aims. Big-business influence has permeated our setup in Germany from the start, though in five successive elections we have repudiated the predominance of that same influence in management of our own affairs here at home.

We have exported abroad what we have rejected here. Able men drawn from our government, men familiar with the problems presented in our original German objectives, were sent to Germany to help with policy, but they were shunted aside and most of them finally gave up in discouragement.

# Opening Out the Field

By CALVIN A. BYERS

TODAY my neighbor plowed. Every year he opens up the first furrows in the hillside field above the road at this time. The strong bay team goes along the border of the land 80 rods or more, then turns a neat rectangle, throwing the crumbling furrow slice outward. The soil is dark, moist and sandy. The clover turf turns stubbornly and leaves the gravelly base a grayish maze of torn roots. Sinewy long gray lateral roots, though severed come together, and in places move up and down in the south wind that dries them.

The surface of the field is littered with manure and shredded cornfodder from the stable bedding. Sheep, horses, cattle—all are represented by their odors. Lush lithe blades of greening grass shoot up between the scattered bunches of top dressing.

All winter long fat grubs have fattened on the clover crowns. With each pass, the plowman turns them out by the thousands. A congregation of crows along the woodland border eyes this feast and circles, happily cawing. They alight, walk single file in lordly fashion behind the freshest furrow, and fill themselves.

Blackbirds and rusty grackles walk even closer to the farmer's heels, to gather worms made free and plentiful. A robin perches on the top of the woven wire fence and sings, then dives hurriedly for food so near.

**The big bay team is "soft." The horses breathe heavily from the first day's labor after the winter vacation. White lathery sweat forms under the new-oiled leathern straps.**

The farmer's shoes are broadened to twice their width by the clinging clay, so that his movements are slow and his pace dogged. Yet his voice rings out, clear and kind, as he speaks to his mare, and there is a kind of slow, rhythmic enjoyment apparent in the deftness with which he turns every corner.

Clouds are dark and heavy in the north. Night is near and he turns the plow up on its share, at the corner nearest to the barn, and unhitches the grateful team for the night. Pulling back on the reins, he pauses for a last look at what he has done, then follows the horses homeward, more briskly than might be expected. The chains of the harness jingle at every step.

Darkness hangs heavy upon the treetops. The gathering wind blows the darkness across our valley.

Only one team left at the plows of our neighborhood, I muse, walking homeward. The field is opened out now. Perhaps he may even finish this field with his tractor, if the weather improves. It is safer to use the team near the road bank, when the earth is still soft, but the tractor stands ready in his shed, when the rush of spring work shall demand it.

## MIHAILOFF-KRICHBAUM NUPTIALS SOLEMNIZED

### Formal Double Ring Ceremony Held at the First Lutheran Church Sunday Afternoon.

THE REV. CARVETH P. MITCHELL officiated for the double ring ceremony of Miss Mary Mihailoff and Donald William Krichbaum, of Columbus, Sunday, at 4 p. m. in the First Lutheran church. The nuptial vows were spoken before a background of palms, ferns and beauty baskets of white gladioli and white snapdragons. The altar vases were filled with white carnations. White satin ribbons marked the pews. Two seven-branch candelabra lighted the scene.

Miss Mihailoff is the daughter of Mr. and Mrs. Jerry Mihailoff, 401 Michigan avenue, and Mr. Krichbaum is the son of Mr. and Mrs. John Krichbaum of Columbus.

Mrs. Clayson Bell presided at the organ for the nuptial music and Jack Loeffert was the soloist.

The bride, given in marriage by her father, was attired in an ivory satin gown. The neckline came to a small V, fitting close to the neck. Seed pearls embroidered the tight-fitting bodice. The long tight-fitting sleeves came to points over the hands. An extremely full train fell from the full skirt. The illusion fingertip veil was held in place by a tiara of forget-me-nots fashioned in satin. The only jewelry worn by the bride was a strand of pearls, a gift from the bridegroom.

**A beautiful white hybrid orchid with garlands of sweetpeas falling from it was carried on a white prayer book by the bride.**

Miss Goldie Mihailoff, sister of the bride, served as maid of honor. Miss Sophie Mihailoff, sister of the bride, and Miss Norma Prion, a friend, were the bridesmaids. The attendants wore identical gowns of dotted taffeta. The gowns were fashioned with boat necklines and cap sleeves. A full skirt were attached to a tight-fitted bodice. The maid of honor wore a powder blue and the bridesmaids wore a pale shade of pink. A tiara of matching blue was worn by Miss Mihailoff. Headpieces of pink plumes completed the costumes of the bridesmaids.

A front style bouquet of violets surrounded by pink roses and sweetpeas tied with pink ribbons was carried by the maid of honor. The two other bouquets were centered with pink roses and sweetpeas surrounded by violets.

Gregory Allen Mihailoff, 3½ year-old nephew of the bride, was the ring bearer. He wore a white suit and black tie. Mr. and Mrs. Peter Mihailoff are his parents.

Mrs. Milhailoff was attired in a grey crepe with grey and black accessories. Mrs. Krichbaum was attired in a navy blue and white dress. Her accessories were of navy blue. Both mothers wore orchid corsages.

**Edward Marshall, close friend of the couple, served as best man.**

Carl Blocker, college classmate of the bridegroom, and Donald Simmermacher of Crestline, friend of the couple, escorted the guests to their pews.

Immediately following the ceremony a dinner for 40 guests was held at the clubrooms at the Mansfield Leland hotel. The table was centered with a floral arrangement of pastel shades to harmonize with the flowers carried during the ceremony.

The bridal party received 150 guests at a reception at 6:30 in the Mansfield Leland ballroom. The bride's table was centered with a three tiered wedding cake. Maiden hair fern and gardenias were placed at the base of the cake. Lighted candles were on either end of the table Miss Ruth Hammer and Miss Loretta Fink, sorority sisters of the bride, presided at the table.

**For her honeymoon to an undisclosed destination, the new Mrs. Krichbaum wore a black crepe dress with a pink flowered hat. She wore a grey fur coat with a white orchid corsage.**

After next week the couple will reside with the bride's parents on Michigan avenue.

Mrs. Krichbaum graduated from Madison high school and is a member of Epsilon Iota, Beta Phi Mu sorority. Mr. Krichbaum, a graduate of one of the Columbus high schools, is a junior at Ohio Northern University. Mrs. Krichbaum is secretary to Earl Roberts supervisor of the photographic department at the Westinghouse Electric corporation.

Out-of-town guests present at the wedding were from Akron, Marion, Galion, Crestline, Columbus, Cleveland and Chicago.

Out-of-town guests present at the affair were Miss Connie Carlisle, Lyle Irvine, Dr. and Mrs. Robert Magnuson of Columbus, John Claypool, Canton, Mrs Claude V. Marks, and Mr. and Mrs. George Sauter of Mansfield.

* * *

The series of pre-nuptial parties given for Miss Claudia V Marks, bride-elect, was continued Saturday evening with a dinner party given by Mr. and Mrs. Bruce B. McGinty, 39 Shady Lane.

Twelve guests were in attendance, including Mr. and Mrs. Stephen P. Upham jr. of Mt. Vernon and Bradley Upham, Mt. Vernon. Lloyd Shawber, Mansfield resident, who attends Kenyon college, Gambier, was also present.

The table for the buffet supper was centered with a lovely floral arrangement of spring jonquils. Four tall tapers lighted the scene.

Miss Marks, daughter of Mrs. Claude V. Marks, 501 Woodhill road, is the bride-elect of David Lanning Upham, son of Mr. and Mrs. Stephen P. Upham of Mt Vernon. Stoneburner will officiate for the formal wedding ceremony.

## The Fashion Spy Glass

THE big problem every spring is to buy or not to buy a new spring suit. Well, that's a question to be settled with your pocketbook, but if you can't afford one this year, don't even stray near the suit departments when you're out shopping because from what we've seen, no woman will be able to resist them.

Three-piece suits are more beautiful and more practical than ever before. One we liked in particular consisted of a tailored grey sharkskin suit, a sharkskin coat that can be worn with any ensemble, in a three-quarter length, and a matching little Cloche hat. The hat really makes it a four-piece suit.

Another three-piece suit you'll love is in sporty green tweed with a soft green gabardine boxy long jacket. The jacket can be worn with other outfits.

* * *

THE fashion-wise woman is going to start thinking about tweeds this spring, we understand, because by next year tweeds will be THE thing. The ones here in town run the gamut from smart domestic tweeds at $25 to very chic imported jobs in the three-figure category. However, the $25 tweed is just the thing for the college girl or working woman who needs a smart suit for every day.

Before we try to forget about three-piece suits we want to tell you about one more that was very special. It has a green or blue wool crepe skirt and a worsted check fitted jacket. The boxy three-quarter coat matches the worsted check of the jacket. The coat is trimmed with the skirt color.

* * *

THERE are a lot of two-toned suits shown this year and the glen plaid is still a pretty popular number. Gabardine and sharkskin are the two biggest selling materials. We didn't see any flannel and we haven't heard a thing about it this year.

Blue is the color news. It's separated into three shades this year—navy, muddy and skipper. They're all much more sparkling than the plain old navy blue we see every year which is probably why it's today's biggest color. Flamingo, that off red shade, beige and grey are runners-up for suit color popularity.

We want to mention one other suit we saw for those who are looking for an attractive summer suit. This one was made of rayon and had a brown skirt and a cream jacket with brown polka dots.

If you want to know which stores carry any of the abovementioned suits, call Joan Schweitz at the new News-Journal telephone number, 7231-6.

A FIG FOR YOUR APPLE SALAD. For interesting flavor variety, chop crisp, juicy Delicious apples and carrots, moisten with mayonnaise and serve on sweet dried figs. Appetizing, and nutritious!

# Horoscope

By GENEVIEVE KEMBLE

**For Tuesday, March 8**

WHILE the indications are for a highly stimulated urge to forge ahead in order to put over greatly desired plans and ambitions, yet such proposed objectives may be seriously blocked or finally ruined by rash, half-baked or untimely action. The unexceptional opportunity for real progress and fulfilled hopes may be frustrated by false moves, or possibly erratic decisions not based on logic. In the long run it may be more productive to postpone vital developments for calm analysis and the support of needful cooperation from influential sources. These must be convinced.

**For the Birthday**

Those whose birthday it is, may find it expedient and their wiser course to interfere with decidedly clever, and original or novel operations. Although the mentality is unusually stimulated to innovation and out-of-the-ordinary tactics or bold ideas, yet the emotions may be erratic, or fantastic, thereby alienating the interest and support of those whose cooperation may be of utmost importance. Pause for shrewd analysis, while plans and techniques may have time to incubate or develop logically. Emotions or high pressure could prove detrimental.

**HOT CHEESE BREAD** is delicious with soups or tossed salads. Cut unsliced loaf of bread lengthwise down through the center almost to the bottom. Then cut crosswise in thick slices, leaving them also joined at the bottom—in other words, do not cut the slices entirely apart. Spread the slices generously on both sides with softened butter, then sprinkle 1-½ cups grated cheese over the whole loaf, shaking it down lightly between the slices. Bake in a moderate oven to a light brown and serve hot, breaking the bread apart as you serve it.

# *Honor Two at Birthday Party*

Mrs. John Roman, worthy matron, and Mrs. Louisa Ruhl chaplain, were honored guests on their birthdays when the 1949 officers and committee members of Ruth Chapter No. 17 O.E.S., met at the John Todd park pavilion. Mrs. Dan Lamneck, associate matron, was general chairman and was assisted by a number of the officers.

Music in charge of Mrs. Virginia Kennedy, soloist, and Mrs Corson Brown, organist, and a style parade, of colonial costumes, in charge of Mrs. Paul Sherrer and members of the circle committee, furnished the entertainment of the evening. Each honored guest was presented with a birthday cake, a corsage and gift. Cakes were served at each place. Table decorations were in aqua and yellow, with tall yellow tapers and rose bowls with yellow roses. There were about 60 in attendance.

# Unify Transportation Controls, Hoover Commission Recommends

WASHINGTON — (AP) — The Hoover commission today recommended handing all the government's controls over the nation's transportation—railroads, highways, planes and ships—to the commerce department

In perhaps the most sweeping remodeling plan of the 10 it has thus far sent to Congress the commission urged moving into that one department all or part of eight other government agencies—including the Coast Guard and the business activities of the Maritime Commission.

Its suggestion that the Secretary of Commerce "be assigned the duty of making over-all route programs for air land and water transportation," the commission said, would eliminate "waste and overlap"

**It would center on one official the responsibility for planning the peacetime growth and the wartime mobilization of the country's transportation.**

That broad authority would strip executive powers from several major agencies, but would affect only indirectly their power to grant routes and fix rates.

However, the commission said, under the new setup a proposed airline would be weighed not only against other airlines but against truck, railroad and shipping lines with which it might compete.

The report was sprinkled with dissents. But Hoover, who was Secretary of Commerce under Presidents Harding and Coolidge, was on the majority side in all the recommendations

The report proposed the following shifts of agencies into the commerce department:

One independent agency, the National Advisory Committee on aeronautics, with nearly 7,000 workers, to be absorbed bodily.

From treasury — the Coast Guard, which the report said is "obviously misplaced" now; also certain marine duties of the customs bureau if a study shows such a merger to be desirable.

From the Federal Works Agency—the entire public roads administration

From the Maritime commission—all its business and executive duties, including the buying, selling, and subsidizing of ships and the making of loans to shipping companies.

From the executive office of the President—the office of defense transportation.

From the Interstate Commerce Commission—all truck and bus safety operations and a number of railroad functions, including safety measures, the making of railroad merger plans, and "car service" The last would give commerce authority to deal with critical shortages of railroad cars.

From the Civil Aeronautics Board—the duties of issuing and enforcing air safety rules. A new "bureau of civil aviation" would be set up in commerce, to embrace all the department's aviation activities.

From Interior department — all commercial fisheries activity, now part of the fish wildlife service. "A bureau of fisheries can be one of the most important industrial and commercial agencies in the government," the report said

As projected by the commission, the Commerce department would be split into two main operating branches.

**A "transportation service" would manage most of the newly-absorbed units as well as the weather bureau and other related offices now in the department.**

An "industrial and commercial service," would be set up to include the Bureau of Foreign and Domestic Commerce, the New Fisheries Bureau, the Census, Patent office, and other business and trade agencies.

The commission would make the department, for the first time, as a major order-issuing agency. It now has few directive powers beyond export control and the allocation of tin and a handful of other scarce materials.

But the group was unanimous in rejecting the proposal of its advisory subcommittee that the transportation agencies be merged into a new Department of Transportation with full cabinet status.

It would not be appropriate, the commissioners held, to set up a department for the problems of one industry.
